Some Democratic leaders have come to the conclusion that they have before the conclusion that they have before the conclusion that they have before them a greater work than revision of the lariff. They realize that the executive departments are called upon to expend great sums of money as the result of public sentiment and that congress must supply the means for these expenditures.

WASHINGTON March 5 .- Official an-

Liat if tariff legislation should be passed by the house which would provide insufficient recenues, the senate probably would at once amend it.

In the event of supremacy of the house in conference, which is not improbable in view of the fact that the senate will be barely Republican and a portion of its majority comprised of insurgents who may act with the Democrats, it is not doubted that President Taft would use the veto. In fact, he has strongly intimated as much.

Many persons think, therefore, that few actual tariff clianges will result from the extraordinary session.

Some conservative Democrats are already arguing that their party was in no wise responsible for the extra session, and that had it not been called by the president, the tariff question would have been postponed until the regular session beelming in December.

These will try to have the question of reduced import duties considered next white in connection with a radical reduction for expenditures.

If this course were followed the special session of connection with a radical reduction prevail, nobody can forecast the length of the extra session.

DEATH DI JURITAU

CLEVELAND. March 6.—Fire, which broke out at 12:45 o clock this morning, destroyed a three-story tenement building occupied by Greeks, A dozen men saved their lives by jumping from the second and third floors into biankets held by policemen. Several others missed the blankets and were injured. The cause of the fire is unknown. First reports were that three persons met death in the fire, but so far the police stated positively that no lives were lost in the burning building.

Fourteen men, however, were badly injured and two of them may die. Most of the injured obtained their burts when the first floor on which they were sleeping gave way and precipitated them into the basement. The first the sleepers knew of the fire was when the floor gave way. More than fifty Greeks were askeep in the building at the time of the fire.

Twelve persons were rescued from the upper stories of the building, while the flames were roaring around them. Some of these sustained slight injuries, but none was seriously hurt.

The origin of the fire is unknown. The atarm was given by passers-by on Nicollet avenue, who saw the flames bursting from the second-story window. Before the firemen had arrived the tenants of the huilding who were asleep in the upper rooms began to appear at the windows, calling for sid.

A strong wind was blowing and in a very few minutes the west half of the building was a furnace. The entire fire department of Minneapolis was called out, but it was totally inadequate to check the flames. Later a call was sent to St. Paul for help and this was immediately furnished.

# PASTOR AKED READY TO SEEK NEW FIELD

Believes His Ministry to the Fifth Avenue Baptist Church, New York, a Failure.

HIS DREAMS ARE BLASTED

NEW YORK, March 5.—Frankly stating the disappointment he had experienced in his ministry to the wealthy Fifth Avenue Baptist church, the Rev. Charles F. Aked announced today that he had received a unanimous and enthusiastic call to the First Congregational church of San Francisco. He said he had been unable to find any good reason why he should not accept. The announcement was made from the pulpit. He regretfully acknowledged his fears that the great enterprises which he had hoped to lead as pastor of one of the wealthlest churches in America, popularly known as the John D. Rockefeller church, were only "such stuff as dreams are made of."

Notwithstanding the \$10.000 salary offered him when he came here from Pembroke chapel in Liverpool, Eng., four years ago, and the recent increase to \$12.000, or his ties of friendship in the metropolis, he did not see how he could contemplate a permanent ministry here. He chafed under the failure of the church to provide a larger edifice and to undertake larger enterprises.

"So far as we can see today," he said, "there is no future for this church or for my ministry."

He gave the Fifth Avenue congregation ten days of grace in which to consider the situation before he should say definitely whether he would accept the call to the Pacific coast.

George Wallace Proposes Plans to Make Zion Most Attractive Spot in World.

URGES PARK ON SHORE OF GREAT SALT LAKE

Suggests Employment of Landscape Artist of International Fame.

With what the Almighty has done for his region. Salt Lake City and the imnediately contiguous region can, by the exercise of intelligent, well-directed effort and the expenditure of a comparatively small amount of money, be made the most

This was the emphatic statement of George Y Wallece, chairman of the Commercial club committee on public improvements and parks at the conclusion of an interesting discussion last night of what might be done if the citizens carried forward with interest the movement to give the city park commission something like adequate funds to work with by enacting into law the measure which passed the house Saturday and which provides for a maximum and minimum of taxation for a fund to be devoted exclusively to the beautifying of the city.

Citizens Are Aroused.

Citizens Are Aroused.

While a virtually similar measure had been earlier defeated, the prompt and effective work of the city park commission, composed of A. Fred Wey, chairman, C. H. Griffin, Joseph Redman, Richard P. Morris and Heber M. Wells, and the Commercial club committee, headed by Mr. Wallace, caused the change in sentiment and the reconsideration of the action taken by the house. These citizens express confidence that both the senate and Governor Spry will view the measure in the same light as did the house Saturday and afford it their cordial support.

step in the right direction. What may be done with the sum that can be raised from this levy will serve to awaken a more general public sentiment and to make the people of Sait Lake see the opportunities presented opportunities that have been neglected, but have been for years ready to be taken advantage of with profit in a double sense, both financially and in the satisfaction of the artistic traste. When the question of securing the passage of this park commission bill appeared to be a serious one, a luncheon was airanged for last Friday at the Commercial club and it was attended by members of the Commercial club committee on improvements and parks, the

Laving Plans for Future. In reviewing the sentiment manifest and at the consensus of opinion expressed at that time, Mr. Wallace said: at that time, Mr. Wallace said:

"It is the hope of the Commercial club committee that the park commission and the city will be able to secure the services of some great landscape architect, some man with the genuis and ability to tell us just what we should do and how it should be done. It is not primarily a question of spending money this year and the next, it is the more vital problem of laying plans that will take the great future into consideration, of understanding now what will be the needs and conditions that will confront us ten, twenty, if the years from now.

"Let me give you an illustration. Last summer I had as my guest Architect Bruner, secretary of the New York Civic Improvement association, a body that absolutely passes upon every public improvement that can be made in New York. He rode with me up City Creek canyon to the old waterworks and was enraptured both with the view and the possibilities for heautifying by the construction of parks and boulevards.

Need United Effort.

Need United Effort.

"A meeting was held at the Commercial club at which Bruner ursed begged and prayed the citizens to organize a civic association and to take up in earnest this great question of beautifying the city and the surrounding region. Let the people once be fully awakened to a realization of this and the rest will be only a matter of time. We do not yet seem to understand that we ourselves are losing by our neglect. I have learned by careful investigation that the stay of the average tourist in Sait Lake is about twelve hours the stay of the average tourist here to one week, by making the city so beautiful and attractive that he will not be willing to leave, it means to us from the purely hussnesses standproint, an income of \$2.000.000 per year. Need United Effort.

"No. I am not willing to say what should be done. That must be decided by the man or men who have the genius, training and experience to speak with authority upon a question that affects millions of people." Unrivaled Opportunity.

Wallace grew enthusiastic when speak-ing of the natural beauties of the city, the valley, the mountains and canyons surrounding, and what the hand and brain of man might do to make the region an artist's delight, famed throughout the

an artist's delight, famed throughout the world.

"The possibilities are simply beyond expression." he declared. "For illustration. Let the city buy 2000 or 3000 acres of land on the shores of Great Salt Lake. There is an abundance of fresh water to be had; the transforming of this tract from a salty waste to a beautiful park could be accomplished at comparatively small expense within ten years time and the city would have one of the world's grentest parks right on the shores of the most wonderful body of salt water in the world. Would it not be an attraction? Would not tourists come from every land to enjoy the double pleasure?

"Then, there is Fort Douglas, almost a natural park; City Creek canyon, which should have a boulevard surpassed by none in any land; Parley's canyon and American Fork canyon, which should have a boulevard surpassed by none in any land; Parley's canyon and American Fork canyon, which should be filled with beautiful resorts; Liberty park, already creditable to the city, but which requires time, money and senius to make it what it should be.

"Then comes the plagrounds question—one of the most vital of all. The Commercial club committee on improvements and parks has asked the city council to Continued on Page Two.
